

Hoodsport Fire & EMS is committed to providing exceptional quality care. Because of our community support, we have been able to achieve so much...

Transports by our crews in the last 5 years. This keeps our partner agencies paramedic units available for critical patients and reduces costs to the individual.

2019	45
2020	68
2021	115
2022	144
2023	124
2024	145

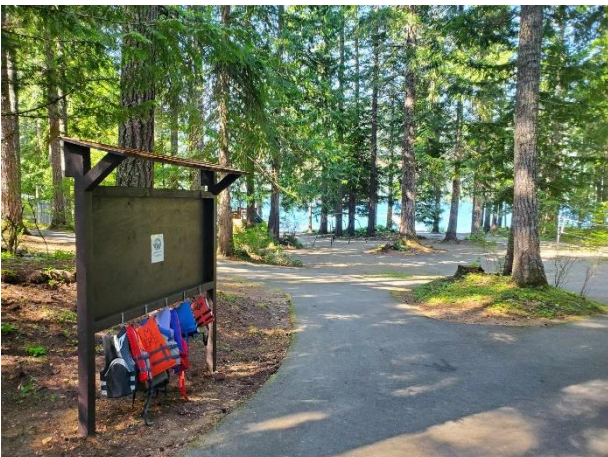

We have been fortunate enough to have volunteers coming from Pierce, Kitsap and Mason County all with the desire to help take care of our community and its growing needs. Our volunteer program with sleeping quarters at the Robbins House makes it possible to provide coverage for our district 24/7. This team carries varying certifications such as, but not limited to, Firefighters (interior/exterior structural and wildland), EMTs, IV Techs, Paramedics, Rope Rescue, SORT team, and more.

Our paramedic scholarship is in its third year with our first recipient having successfully completed her program. Our last recipient is about One Year into his program.

Approximately 80% of our calls are EMS related.

Historical Call Volume by Year:

2019	509
2020	568
2021	680
2022	672
2023	628
2024	739

In 2024, in partnership with Lake Cushman Maintenance Company and several community members we were able to provide Life Jacket Loaner Racks at 5 of our parks: Parks 1, 2, 3, 9 and 14 now have life jackets readily available. The community response and support to help provide the life jackets is very appreciated.

\*\*\*Please note: these life jackets are to use at your own risk\*\*\*

We are always looking for volunteers! If you are looking for a way to give back to our community and are interested in Structural/ Wildland, EMS and Support Positions please reach out to us. Training is provided: must be 18+, high school diploma or GED, be able to pass a background/drug screening and have a drivers license. We have weekly drills on Tuesday at 6:00 pm on varying topics. We move

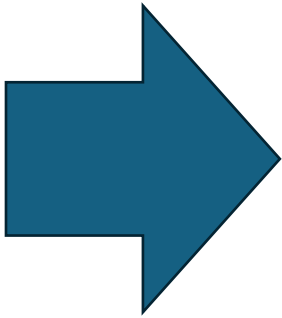

trainings between the two stations, so call the station for more information and location of drill for the week.

Please remember we can only get to your house if we can find it. Make sure address markers are visible from the roads. If you have questions about placement, please feel free to contact us.

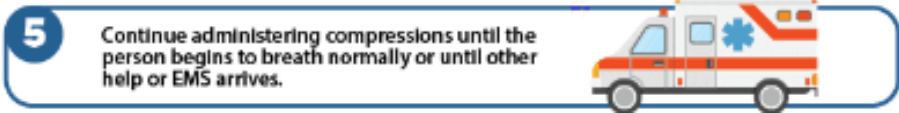

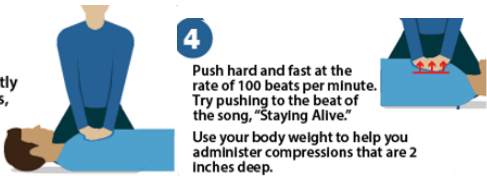

We are excited for a BIG contribution to our department this year. Funds were donated to the Hood Canal Kiwanas with the specific purpose of funding a boat and training for our department. With so many bodies of water in our district, as well as surrounding districts, water emergencies can create challenges of getting the correct resources in a timely manner. This boat being built could make a huge difference and will make accessible the opportunity for a timely response for our district, as well as surrounding areas. We have plans to get it officially in service this Spring.

We are always looking for grant opportunities to help reduce costs to our voters, not only independently, but also working with other districts in Mason County. In the past we have been awarded through FEMA money to replace our expired SCBA's and more recently a grant through DNR to outfit three of our first out vehicles with updated computer capabilities. These systems will allow us to see commercial building layouts, hydrant location and the most recent data from dispatch when responding to emergencies.

Our first community CPR/ First Aid Class was hosted in June 2024 and had 7 people attend. While getting the certification may not be the priority for everyone, we would like to express the importance of high-quality CPR until responders get on scene.
